Following the successful establishment of our first non-profit eye centre in Impfondo in the Republic of Congo, at the invitation and with the support of local authorities, we are extending our services through the construction and fitting out of a new comprehensive teaching eye hospital in Ouesso on a 6-hectare piece of land. This strategic location will enable us to reach out to the whole of Congo and neighbouring countries. We are looking for like-minded people passionate about giving the priceless gift of sight.
